Monet’s Waterloo Bridge: The Science Behind Color and Light
Educators from the MAG and the Rochester Museum and Science Center (RMSC) explain how scientists looked “beneath the surface” of Waterloo Bridge and what their findings reveal about color theory, light waves and how we see.

Art, Science

WEDNESDAY, MARCH 13, 2019

Drawing in the Galleries
Spend an evening looking at and creating art using works from MAG’s renowned collection based on the human form. This MAG PD will start with helpful hints on anatomical proportions and a brief demonstration in silver point from artist Chelsea Anderson. Following this presentation you will receive materials to draw in MAG’s Permanent Collection, and a chance to try the silver point technique.

WEDNESDAY, April 3, 2019

Frederick Douglass and the Art of Isaac Julien
Explore multi-media resources newly available to area teachers and students. See Lessons of the Hour and discuss strategies for using the moving image in your Art, ELA and Social Studies lessons. Educators from the UR Department of Rare Books and Special Collections will share their rare Frederick Douglass documents and images, as well as the Frederick Douglass digital lessons they have created.

WEDNESDAY, APRIL 24, 2019

Writing on Art
Dr. Alicia Van Borssum, 30-year veteran classroom teacher and specialist in English as a Second Language, joins MAG staff to explore creative and effective ways to integrate Art and ELA - with reference to the new Next Generation Learning Standards.

Interested in helping design and collaborate on a MAG workshop?
