One day or ten weeks? Clay or painting? Beginner or advanced? The Creative Workshop, Rochester's art school for all ages, has a class for you!
welcome to
the workshop

Does autumn conjure up that “back to school” feeling of anticipation of new experiences, the delight of cadmium yellow and orange leaves, and the thrill of a slight chill in the air? Does winter bring a return to your knitting, a chance to make a sculpture out of snow (aren’t all of our first sculptures made of snow?), and the joy of an unseasonably warm day in the middle of February? If so, we think this course catalog delivers dozens of possibilities for you to express your creativity.

Our classes will provide a spark, our instructors will encourage you and help build your skills, and our special events will give you a chance to grow your whole family’s art interests and aesthetic appreciation. We’ve even expanded the curriculum (especially parent & child, sewing and art appreciation classes) in response to student requests.

In the more than 80 years of art classes for all ages at the Creative Workshop, and the even longer history of the Memorial Art Gallery, we have remained dedicated to making art education fun, affordable and available for even the trickiest of schedules. This catalog includes some classes as short as one day (just three hours) and some as long as ten weeks; see our At-A-Glance features on page 2 and page 7 for more.

As you read on, don’t hesitate to ask questions or let us help you find the right class. Please don’t be shy, either. We’d love to meet you at our next Open House or anytime you’d like to call 276.8959 or stop by the Workshop.

Best,

PARENTS PLEASE READ
Classes are listed by age grouping and subject matter. We understand children’s busy lives, so classes are scheduled at a variety of times and identified by a symbol that signifies fall (leaf) or winter (snowflake). Call us and we can help you find the right class for your child.

Students should be the stated age by the start of the class. Exceptions can be made for some classes; check with the Workshop, 276.8959.

Students are expected to attend and participate in classes without a parent or guardian present, unless otherwise noted. Students should dress to get dirty—that’s part of the fun!

Register early to guarantee enrollment in the class of your choice. Please note that the Workshop reserves the right to make teacher changes or cancel classes a week before the start date in cases of low enrollment.

IMPORTANT NOTE FOR PARENTS: Please give us the names of any adults permitted to pick up your child from a class on the registration form on page 18.

From an illustrated children’s book, the instructor develops an exciting art project and teaches your child how to follow ideas into art. Engaging stories provide the inspiration, as your child creates basic projects using colorful materials. Most classes include a visit to the Gallery, and all projects are based around kid-friendly themes that change with each new session.

Fee for 31948 or 31950: $98 (members $88)
Fee for 31949: $80 (members $72)

You’ll start by working with slabs, coils and pinched forms, and then sit down at the potter’s wheel to turn clay into functional objects. As you learn to control the speed, your own posture, and concentration on a spinning potter’s wheel, you will make work of increasing sophistication. Some clay experience suggested but not required.

The teacher, a professional cartoonist and illustrator, helps you establish characters and stories. He’ll often play the guitar while you draw, which gives you some time to sort out visual solutions in a creative environment.

You’ll leave with your own 3-D figure model with accessories, after you’ve learned the process. Begin with sketches and concept illustrations (the same steps used in comic book and movie production); develop a set of characters, story and settings; and then choose one that will be your character. You’ll fabricate a model (using armature and plaster gauze) inspired by visits to sculpture in the Gallery. Perfect for students interested in Manga, science fiction or fashion, or curious about illustration or sculpture.

what is art day school (and when is it coming)?

Art Day School (ADS) is our all-day, week-long art camp for kids ages 7–13. We run ADS most times there are school breaks, including:
• Winter ADS (single session) on February 21–25
• Spring ADS (single session) on April 18–22

We will release detailed information for Winter, Spring and Summer Art Day School by Saturday, December 11; registration starts January 15.
Throughout the year, Creative Workshop instructors, staff and interns collaborate on vivid exhibitions of students and faculty artworks. Each student—adult, teen or child, newcomer or “regular”—has the chance to show at least one piece of artwork in the Workshop’s Lucy Burne Gallery. Students come away with a feeling of satisfaction, knowing they have been part of a professional exhibit. All students are strongly and warmly encouraged to submit pieces. This is a part of the Workshop experience that should not be missed!

This fall and winter, don’t miss:
August 23–October 9, 2010: Workshop Faculty Show
October 16–November 13, 2010: The Portrait Show (faculty & students)
November 20–December 11, 2010: Children’s Show
December 16, 2010–January 29, 2011: Warm, Beautiful and Useful (fiber art by teen and adult students)
February 3–March 3, 2011: Thaw: Considering The Climate (adult, teen & child students)
March 6–April 9, 2011: Children’s Show

For more information about Burne Gallery shows, contact Rachael Baldanza, Curriculum Director, at 276.8956.

A Case for Kids
This fall, we’re training the next generation of curators!
Any Workshop student between the ages of 2½ and 15 can help decide what will be on view this winter in A Case for Kids, a changing exhibit near the Gallery’s school tour entrance. Pick up a ballot at the Workshop office (or in any children’s art class) and choose your favorites from the 11 contenders.

Voting will be open between September 1 and October 23. The winning objects will be announced October 30 and installed in time for the Workshop Open House on December 11.

Pictured: Edward Marshall Boehm’s Young and Spirited Fledgling American Bald Eagles (1976) were on view earlier this year in A Case for Kids. Gift of Margaret A. Waasdorp.

GROW AN ARTIST.

Especially if you think you can’t make art, give us a call or stop by one of our Open Houses (at Clothesline on September 11 & 12 or on December 11). We believe you can.

Creative Workshop teaching artists are committed to patiently and strategically teaching anyone skills and strategies to be more creative. See their full biographies online at mag.rochester.edu/creativeworkshop. All will encourage you to practice, practice, and practice some more. Even with the emphasis on good craftsmanship, we expect you’ll enjoy your class—we hear a lot of laughter from the classrooms!

On the following pages are classes organized by media (Drawing & Painting, Ceramics & Sculpture, Jewelry & Fibers, and Art Appreciation) and listed by length. Classes that only meet a few times are designed to give students a chance to try new techniques and materials.

Materials are occasionally available in kits, but as a rule they are not provided for teen and adult courses. We provide supply lists that allow you to purchase supplies within your budget. Several local art supply stores help by providing coupons.

PLEASE REGISTER AT LEAST ONE WEEK BEFORE YOUR CLASS STARTS!

THURSDAY EVENING
**Drawing**

Drawing is a core art skill that anyone can learn. Drawing realistically or in an abstract manner is easier and more satisfying after you develop skills in rendering, measuring, and shading to create form. Learning to draw or draw better is also about learning to see, learning a new language, and finding your way around the best tools and techniques used by artists for centuries.

If you’re just starting, we recommend that you begin with one of the short classes listed below or *Beginning Drawing*.

**DRAWING FEARLESSLY**

32200 One Thursday, 6–9 pm, October 7 [taught by Marilyn Feinberg]
32201 One Saturday, 1–4 pm, October 2 [taught by Gina Zanolli]
32202 One Wednesday, 1–4 pm, November 3 [taught by Marilyn Feinberg]
32203 One Thursday, 6–9 pm, January 20 [taught by Cody Kroll]
32204 One Saturday, 1–4 pm, January 15 [taught by Gina Zanolli]
32205 One Wednesday, 1–4 pm, January 26 [taught by Gina Zanolli]

Give us three hours and we’ll give you a rich experience, a smile on your face, and a drawing you never thought you could make. You can conquer your fears about drawing, enjoy the calm and relaxing nature of the Gallery, and best of all see things differently. We provide all materials, coaching and instruction.

Fee: $40 (members $36)

**ART FOR ABSOLUTE BEGINNERS**

32206 Five Saturdays, 11 am–12:30 pm, October 30–December 4 (no class November 27) [taught by Lisa Myers]
32207 Eight Saturdays, 11 am–12:30 pm, January 15–March 12 (no class February 19) [taught by Lisa Myers]

*Short course!* This class is perfect for an adult who has brought children to classes and envied them from the door. Why should the kids have all the fun? This class teaches skills in a fun and relaxed way—little drawing, little painting, some sculpture, some clay. There is no right or wrong way to develop your own creativity, and you’ll be surprised with what you make. Your child (or spouse or best friend) will be proud of you! Some materials provided; short list available.

Fee for 32206: $108 (members $97)
Fee for 32207: $166 (members $149)

**DRAWING AT THE LAMBERTON CONSERVATORY IN HIGHLAND PARK**

32212 Three Thursdays, 1–4 pm, October 7–21 [taught by Phyllis Bryce-Ely]
32213 Three Thursdays, 1–4 pm, January 13–27 [taught by Phyllis Bryce-Ely]
or
32214 Three Saturdays, 11 am–2 pm, January 22–February 5 [taught by Christina Laurel]

*Short course!* Learn to draw by following the stem to the petal. Breathe new life into your drawings by sketching from the beautiful collection of growing specimens at the Conservatory. Amid blossoming and blooming flowers and trees, you’ll learn to look more closely, draw what you see, and improve your technique and compositional skills. Each instructor will approach things a little differently, but will never dictate style or subject matter.

This class meets at the renovated Lamberton Conservatory in Highland Park; a one-year individual membership to the Conservatory is included in the price of the class.

Fine for beginners or those with more experience. Students under 18 must be accompanied by an adult. Students will need to bring supplies (including sketchbook, drawing pencils and colored pencils) to the first class; a supply list is available at registration.

First time fee: $91 (members $82)
Second time fee/fee for current Conservatory members: $81 (members $73)

**DRAWING WITH COLOR**

32221 Four Tuesdays, 6:30–9:30 pm, October 5–26 [taught by Christina Laurel] **Focus: colored pencil**
32222 Five Tuesdays, 6:30–9:30 pm, November 2–30 [taught by Phyllis Bryce-Ely] **Focus: colored pencil or pastel**
32223 Five Tuesdays, 9:30 am–12:30 pm, January 11–February 8 [taught by Christine Waara] **Focus: pastel**

*Short course!* This class is designed to introduce you to drawing in full color. Using colored pencils, pastels or other color media, you’ll improve your representative and imaginative skills. With encouragement and instruction, you’ll move seamlessly from doodles to patterns to drawings. As you start to draw, your sketchbook can be a place where you grow at your own pace. Supply list available at registration. Fine for absolute beginners.

Fee for 32221: $107 (members $96)
Fee for 32222 or 32223: $133 (members $120)

or
32211 Four Tuesdays, 6:30–9:30 pm, January 25–February 15 [taught by Christina Laurel]

*Short course!* Do you want to draw but fear that you can’t? You can. Drawing can be joyful instead of frustrating. You will start where you are: drawing small objects or doodling. Your instructor will help you find more ways to draw for your own enjoyment. You will explore mark making with a variety of materials and enjoy yourself as you develop your drawing and creative skills. This sketchbook-based class is an excellent short introduction or re-introduction to drawing that leads naturally into other drawing classes. Great for absolute beginners.

(for those with some experience)
32275 Ten Tuesdays, 6:30–9:30 pm, September 21–November 23 [taught by Shelly Green Stoler]
or
32276 Ten Wednesdays, 9:30 am–12:30 pm, September 22–December 1 (no class November 24) [taught by Shelly Green Stoler]
32277 Eight Tuesdays, 6:30–9:30 pm, January 11–March 8 (no class February 22) [taught by Shelly Green Stoler]

You could learn to throw larger cylinders, bowls, plates, attach handles, create surface texturing, even lidded vessels, teapots and altered shapes. Ask your teacher for guidance with technique or design, learn how to make a lid for your teapot, or just keep spinning along productively on the wheel. We’ll help you make clay obey.

Fee for 32277 or 32278: $216 (members $194)

Jewelry

Learn to make your own jewelry! The design, fabrication and finish of jewelry requires creativity, careful attention to detail, and project planning skills. Learning to use fine saws for metal and other specialized equipment can take time, but yields rewards in personal projects. Students who take jewelry classes tell us that they were amazed they could learn to set a stone, professionally string a line of pearls, make an enameled pendant, all while laughing, learning and meeting new friends.

Our instructors are professional jewelers and teachers who understand the creative and practical concerns that go into every piece of hand-made jewelry.

Jewelry classes are excellent for anyone wanting to work accurately, efficiently, and creatively in metal on a small scale. We also find that beautiful jewelry can be made within any budget by any student.

To sample what is possible, try one of our One Shot Jewelry series (page 13). Often, though, students tell us that one class is not enough! The best full class to start with is Beginning Jewelry (if you have little or no experience) or Jewelry Workshop (if you have some experience.)

Short classes in specialized techniques (such as soldering or using the rolling mill) can help you add techniques to your “toolbox” and allow you to make the magical things you want to make. Many students find that existing skills in drawing or ceramics help with their jewelry.

We may offer short classes not listed here. For the latest, visit mag.rochester.edu/creativeworkshop or call 276.8959.

You’ll use tiny, fine-toothed sawblades to cut metal and learn how to solder copper, brass or silver. You’ll also learn to bezel-set stones, as you design and create your own fine jewelry. Each teacher approaches the class with a unique style, with an eye towards demonstrating and instilling fine craftsmanship and safe techniques from your very first project. Students often take this class more than once—allowing them to work with more than one teacher and approach projects differently. Students can expect to make one to three projects of their own design. Classes move along quickly, so be sure to attend the first session. Fee includes standard supply kit (no silver).
