We begin our program in Kansas City, with a lovely lunch at Café Sebastienne, part of the Kemper Museum of Contemporary Art and one of Kansas City’s premier restaurants. After lunch, explore the Kemper Museum on a private docent-led tour which boasts a vast permanent collection of modern and contemporary art works, including works by Dale Chihuly, Petah Coyne, Georgia O’Keeffe and Andy Warhol. End the day with a welcome dinner at the Capital Grille.

Continue discovering Kansas City with a tour of the Kauffman Performing Arts Center, designed by Moshe Safdie. Enjoy a curatorial visit of the Nelson-Atkins Museum of Art, characterized by its dramatic Bloch Building. Recognized internationally as one of the finest art museums in the United States, it currently maintains a collection of over 40,000 works of art, spanning over 5,000 years. Take a stroll through the museum’s sculpture park which features what looks like a giant game of badminton, titled Shuttlecocks.

Tour the home and studio of Missouri’s most renowned 20th-century artist, Thomas Hart Benton, known to best interpret realistic American lifestyles and cultures. His two-and-a-half story, eclectic-style house reveals a lot about his interest and many of his original paintings and sculptures add a vibrant splash of color to the simply decorated home. Discover Kansas City’s blossoming arts scene at the Crossroads Art District where we will enjoy special visits to local galleries before enjoying a Bar-B-Q lunch at Arthur Bryant’s, voted one of the best Bar-B-Q restaurants in the country.

Continue on to Bentonville for a visit to the Crystal Bridges Museum. Also designed by Safdie, the museum is strategically situated in the picturesque setting where natural beauty and the impact of art collide. Take a private docent-led tour of the museum’s Collection Highlights which spans five centuries of American masterworks. Here you will also have time at leisure to take-in the museum’s vast collection and temporary exhibits.

Walking along the Art Trail, discover the museums outstanding sculpture collection and experience James Turrell’s The Way of Color. Enjoy a lovely farewell dinner at the Hive, located in the 21C Hotel. End the program with a morning tour of the Frank Lloyd Wright building, also known as the Bachman-Wilson House, built in 1956. The house is a classic example of Wright’s Usonian design. In 2013 Crystal Bridges acquired the home and began a long process of relocating the house, a process that required disassembling piece by piece and transporting over 1,200 miles to Bentonville.
